### The SAGE Handbook of Cultural Anthropology

Edited by Lene Pedersen and Lisa Cliggett

The SAGE Handbook of the Social Sciences

The SAGE Handbook of Cultural Anthropology is the first instalment of The SAGE Handbook of the Social Sciences series and encompasses major specialities as well as key interdisciplinary themes relevant to the field. Globally, societies are facing major upheaval and change, and the social sciences are fundamental to the analysis of these issues, as well as the development of strategies for addressing them. This handbook provides a rich overview of the discipline and has a future focus whilst using international theories and examples throughout. The SAGE Handbook of Cultural Anthropology is an essential resource for social scientists globally and contains a rich body of chapters on all major topics relevant to the field, whilst also presenting a possible road map for the future of the field.

### Contemporary Studies in Bilingualism and Multilingualism

Four Volume Set

Edited by Masayo Yamamoto

SAGE Benchmarks in Language and Linguistics

The epoch-making advancement in bilingualism was made in 1962, when Peal and Lambert concluded that bilingual children did much better than monolingual children on both verbal and nonverbal intelligence tests. Much progress has been achieved since then, due to advances in research technology and the increasing number of people speaking a wider variety of languages. Furthermore, the field itself has expanded, as new frontiers of investigation have been explored, including the bilingualism of languages in different modes, such as spoken/signed bilingualism. This Major Work builds upon the previous work in the field and extensively covers the recent developments.

Volume 1: Bilingualism & Intelligence  
 Volume 2: Bilingualism & Semilingualism  
 Volume 3: Bilingualism & Language Use  
 Volume 4: Bilingualism in Deaf Population

## Business &amp; Management

### Cybersecurity Readiness

A Holistic and High-Performance Approach

Dave Chatterjee

Cybersecurity has traditionally been the purview of information technology professionals, who possess specialized knowledge and speak a language that few outside of their department can understand. In our current corporate landscape, however, cybersecurity awareness must be an organization-wide management competency in order to mitigate major threats to an organization's well-being—and be prepared to act if the worst happens. In addition to providing the non-specialist with a jargon-free overview of cybersecurity threats, Dr. Chatterjee focuses most of the book on developing a practical and easy-to-comprehend management framework and success factors that will help leaders assess cybersecurity risks, address organizational weaknesses, and build a collaborative culture that is informed and responsive. Through brief case studies, literature review, and practical tools, he creates a manual for the student and professional alike to put into practice essential skills for any workplace.

## Issues in Global Business

Selections from SAGE Business Researcher

Edited by SAGE Publishing

In 2020, COVID-19 starkly demonstrated the global interconnectedness of business, as it disrupted supply chains and manufacturing operations, broadly shuttered retail stores, and led to restrictions on movement and travel around the world. Other events in 2019 also showcased the undeniable globalization of business, be it from the (un)expected ramifications of Brexit to the impacts of data breaches across various industries. Riots in Hong Kong over an extradition bill also sparked huge debate and controversy, and the U.S.-China trade war also caused concern. All of these events may have largely and immediately impacted one region, yet effects reverberate across larger swathes of the globe—ultimately affecting vast areas, industries, and sectors across the international landscape. Issues in Global Business explores all of these and more, across a wide range of topics, including the on-demand economy, global manufacturing, Bitcoin, data security, and many more.

**The SAGE International Encyclopedia of Mass Media and Society**

Five Volume Set  
 Edited by Debra L. Merskin

This encyclopedia provides a thorough overview of mass media within social and cultural contexts, exploring the development of the mass communication industry, mass communication regulations, and societal interactions and effects. The work discusses mass media around the world in its varied forms - newspapers, magazines, radio, television, film, books, music, websites, social media, mobile media - and describes the role of each in both mirroring and shaping society. The SAGE Encyclopedia of Mass Media and Society assists students exploring such questions as: Has America become what sociologists call a mediated culture, where media reflect and create the culture? What is wrong or right with the theory that people generally choose what to watch or read based on what they already believe, and so media exert a negligible influence?

Approximately 700 articles drawing on research not only from communication and media studies but also from sociology, anthropology, social psychology, politics, and business.

## Criminology & Criminal Justice

### The SAGE Encyclopedia of Criminal Psychology

Four Volume Set

Edited by **Robert D. Morgan**

The SAGE Encyclopedia of Criminal Psychology will be a modern, interdisciplinary resource aimed at students and professionals interested in the intersection of psychology (e.g., social, forensic, clinical), criminal justice, sociology, and criminology. The interdisciplinary study of human behavior in legal contexts includes numerous topics on criminal behavior, criminal justice policies and legal process, crime detection and prevention, eyewitness identification, prison life, offender assessment and rehabilitation, risk assessment and management, offender mental health, community reintegration, and juvenile offending. The study of these topics has been increasing continually since the late 1800s, with people trained in many legal professions such as policing, social work, law, academia, mental health, and corrections. This will be a comprehensive work that will provide the most current empirical information on those topics of greatest concern to students who desire to work in these fields.

## Gender &amp; Sexuality Studies

**The SAGE Encyclopedia of Trans Studies**

Two Volume Set

Edited by **Abbie E. Goldberg and Genny Beemyn**

Professionals like educators and student affairs personnel are increasingly working with trans individuals who are out. But many of them have little formal training or awareness of the life experiences and needs of the trans population.

Having an authoritative, academic resource like The SAGE Encyclopedia of Trans Studies can go a long way toward correcting misconceptions and providing information that is otherwise not readily available. This encyclopedia, featuring more than 300 articles, takes an interdisciplinary and intersectional approach to trans studies. Entries address a wide range of topics, from broad concepts to specific subjects, to key historical figures, events, and organizations. Entries focus on diverse lives, identities, and contexts, including the experiences of trans people in different racial, religious, and sexual communities in the United States and the variety of ways that gender is expressed in other countries. Among the fields of studies covered are psychology, sociology, history, family studies, K-12 and higher education, law/political science, medicine, economics, literature, popular culture, the media, and sports.

## Nursing

### The SAGE Handbook of Nursing Education

Edited by Carol Hall, Mary Gobb, Kathryn Whitcomb and Patricia Yoder-Wise

In the past several years, a revival of research devoted to nursing education has emerged. This emergence has changed the way many educators engage in their practice of working with learners; and learners have come to expect that they will have a rich learning experience designed to develop new (or enhance prior) knowledge, skills, and attitudes. The SAGE Handbook of Nursing Education provides a detailed map of the current discipline, with a carefully selected team of international contributors offering the latest thinking about education in nursing across key areas. This handbook will be a key resource for academic educators, as well as graduate and postgraduate learners.

## Sociology

## Asian Families and Intimacies

Four Volume Set

**Edited by OCHIAI Emiko and Patricia UBEROI**

SAGE Benchmarks in Sociology

Asian Families and Intimacies comprises important and influential writings that form the academic and intellectual heritage of societies across Asia. In Asian societies, a special cultural and social value is attributed to 'the family', and there is deep public concern throughout the region with ongoing changes in the family and in intimate relations. However, a closer look reveals considerable diversity in Asian families and intimate relations, and in their different trajectories of change.

In these volumes, various facets of intimate relations and the interaction between the private and the public spheres assume special importance. The articles reflect on aspects of intimacy in historical and contemporary times, ideals and realities, and differences in family practices between different social strata.

Most of the articles in the volumes have been newly translated from various Asian languages, though there are some texts originally written in English.

- Part 1: Family Ideology
- Part 2: Patriarchy
- Part 3: Sexuality
- Part 4: Marriage
- Part 5: Care Regimes
- Part 6: Gender

## Migration Policies in Asia

Five Volume Set

**Edited by Yoshikazu SHIOBARA, Junichi AKASHI, Tien Shi CHEN, Naoko HASHIMOTO, Chikako KASHIWAZAKI, Atsushi KONDO, Chiho OGAYA, Wonsuk SUN, Eriko SUZUKI and Miwa YAMADA**

Key Issues for the 21st Century

Migration policy is a matter of great significance in modern Asia due to the migration and displacement of large numbers of people, made necessary by economic deprivation, political turmoil and violence, from various Asian countries.

Migration Policies in Asia integrates studies on the migration policies of a large number of Asian countries, published in major academic journals all over the world, to facilitate the further development of this new area of study.

Chapters in each volume cover variety of regions, countries, topics and academic disciplines for balanced coverage of migration across Asia. While the contributions are from not just Asia but across the world, the content will avoid Euro-centric perspectives and focus on the points of view of Asian scholars when covering the history and contemporary situation of migration policies in Asia.

This is a collaborative project with Japan Association for Migration Policy Studies (JAMPS).

Part 1: History, Theory, and Empirical Research

Part 2: Policies on Migrant Workers and International Students

Part 3: Irregular Migration, Forced Migration, and Statelessness

## The SAGE Handbook of International Migration

Edited by Christine Inglis, Wei Li and Binod Khadria

The SAGE Handbook of International Migration provides an authoritative and informed analysis of key issues in international migration, including its crucial significance far beyond the more traditional questions of immigrant settlement and incorporation in particular countries. Bringing together chapters contributed by an international cast of leading voices in the field, the Handbook is arranged around four key thematic parts:

- Part 1: Disciplinary Perspectives on Migration
- Part 2: Historical and Contemporary Flows of Migrants
- Part 3: Theory, Policy and the Factors Affecting Incorporation
- Part 4: National and Global Policy Challenges in Migration

The last three decades have seen the rapid increase and diversification in the types of international migration, and this Handbook has been created to meet the need among academics and researchers across the social sciences, policy makers and commentators for a definitive publication which provides a range of perspectives and insights into key themes and debates in the field.

## The SAGE Handbook of Marxism

Three Volume Set

Edited by Sara R. Farris, Beverly Skeggs and Alberto Toscano

This handbook intends to set the agenda for Marxist understandings of the present and for the future. It will provide an in-depth cartography of – and original contribution to – contemporary Marxist theory and research, showcasing the vitality and range of today's Marxisms. The Handbook sets out from the premise that it is possible to bring together diverse work across the disciplines to demonstrate what is living and lively in Marxist thought, providing a trans-disciplinary 'state of the art' of Marxism, while inspiring contributions to areas of research that still remain, in some cases, embryonic. The aim is to demonstrate how attention to shifting social and cultural realities has compelled contemporary researchers to revisit and renovate classic Marxian concepts as well as to elaborate – in dialogue with other intellectual traditions – new frameworks for the analysis and critique of contemporary capitalism. The handbook intends to advance the debate with essays that rigorously map and renew the concepts that have provided the groundwork and main currents for Marxist theory, and to showcase interventions that set the agenda for Marxist research in the 21st century.

## The SAGE Handbook of Social Studies in Health and Medicine

Second Edition

**Edited by Susan C. Scrimshaw, Sandra D. Lane, Robert A. Rubinstein and Julian Fisher**

The new edition of this handbook builds upon the success of the first by encompassing a range of issues, studies and disciplines and providing a comprehensive overview of the field. Bringing together contributions from leading international scholars and new chapters on key topics such as mental health, pharmaceuticals, race, ethnicity and health, and chronic disease, the handbook maintains its multidisciplinary framework and bridges the gap between health policy and the sociology of health. The broad coverage of topics in addition to new chapters present an engagement with contemporary issues and has a global appeal. The second edition of this title remains a key resource for undergraduates, post-graduates, and researchers in the field.
