

## Sums of Ten

(Card Sort; reproducible cards and recording sheets follow Teacher Notes on p. 114)

Ten	NOT Ten
$8 + 2$	$3 + 7$
$6 + 4$	$4 + \bullet\bullet$
$1 + \bullet\bullet\bullet$	$2 + 7 + 1$
$\bullet\bullet\bullet + \bullet\bullet$	$7 + 5$

$5 + 5$	$2 + 6 + 3$
$5 + 1 + 4$	$\bullet + 8$
$\bullet\bullet + \bullet\bullet\bullet$	$9 + 1$
$10 + 0$	$3 + 4 + 4$

**Advance Preparation:** Create cards by photocopying the reproducible on p. 114 on card stock and cutting the cards apart along the lines. Separate the two blank cards and the two label cards from the deck, and shuffle the rest of the cards.

**Instructions:** Invite the student(s) to sort the cards into 2 piles: **Ten** and **NOT Ten**. Use the label cards to identify the piles.

As students finish the sort, give them the blank cards, and ask them to create their own **Ten** and **NOT Ten** cards.

Ask students to choose three cards from the **Ten** pile (or choose three cards for them). Ask them to explain or show how they knew these cards should go in the **Ten** pile.

Ask students to choose three cards from the **NOT Ten** pile (or choose three cards for them). Ask them to explain or show how they knew these cards should go in the **NOT Ten** pile. Use the recording sheet as appropriate.
